

The All Ohio Chapter of the Soil and Water Conservation Society invites you to join them on August 28, 2013 for their Summer Meeting. The topic this year is *Conservation Aspects of Hydraulic Fracturing* and will include discussions from several perspectives.

Speakers include Eric Romich, an OSU Extension Field Specialist for Energy Development. His focus is in the areas of renewable energy development, energy policy, wind energy, solar energy, and bioenergy resources. He will present An Overview and Summary of Hydraulic Fracturing in Ohio.

Also speaking is Dale Arnold, Director of Energy, Utility, and Local Government Policy at Ohio Farm Bureau Federation. Dale works with Farm Bureau leaders to create energy policy on local, state and national levels. Dale will talk about Landowner Issues.

Other speakers will discuss the oil and Gas industry perspectives.

We do hope you will attend. The flyer containing the agenda and registration form is attached. Please register soon, as space is limited and the registration deadline is August 21st.
