

EMERGENCY RESPONSE PLAN

Purpose: The Emergency Response Plan (ERP) is required to be developed and maintained by all Concentrated Animal Feeding Facilities (CAFFs), Major Concentrated Animal Feeding Facilities (MCAFFs), and Concentrated Animal Feeding Operations (CAFOs). Emergency Response Plans are used to minimize the environmental impact of emergencies that could happen at a facility.

Parts 4, 5, 6 and 7 of the Emergency Response Plan are not required as part of the plan, but they are strongly recommended as a resource for the owner or operator to have onsite in case of an emergency.

It is recommended that the owner or operator keep a copy of the ERP in the Operating Record and a copy at the site office so that it is easily accessible to all employees in the case of an emergency.

The following sections are for the Emergency Response Plan:

- PART 1: GENERAL FACILITY INFORMATION RECORD
- PART 2: DISCHARGE OR SPILL EMERGENCY RESPONSE PLAN
- PART 3: LIST OF EMERGENCY EQUIPMENT SUPPLIERS AND CONTACTS
- PART 4: PREARRANGED EMERGENCY RESPONSE AGREEMENTS
- PART 5: FIRE EMERGENCY RESPONSE INFORMATION SHEET
- PART 6: POWER OUTAGE INFORMATION SHEET
- PART 7: PERSONNEL INFORMATION

FACILITY MAP FOR EMERGENCY RESPONSE

Provide a copy of the facility map (as required on form DLEP-3900-006, Part 6) that also shows the location of hazardous materials, fuel storage, electrical panels, possible direction of manure runoff, and where berming may take place to contain any accidental discharge. Also, indicate the location of materials that could be used for temporary berms (i.e., dirt piles, old hay bales, sawdust, etc.) Areas shall be identified on the map where potential spills can occur and their accompanying surface and subsurface drainage points.

ODA EMERGENCY REPORTING PROCEDURE:

THE OWNER OR OPERATOR MUST REPORT A DISCHARGE OR MANURE SPILL BY TELEPHONE TO THE ODA AS SOON AS POSSIBLE, BUT IN NO CASE MORE THAN TWENTY-FOUR HOURS FOLLOWING FIRST KNOWLEDGE OF THE SPILL OR DISCHARGE. IN THE CASE OF AN EMERGENCY OCCURRING AFTER NORMAL BUSINESS HOURS, CONTACT THE ODA'S AFTER HOURS EMERGENCY TELEPHONE NUMBER.

OAC 901:10-2-17 requires the following information to be reported:

- (i) The times at which the discharge or manure spill occurred and was discovered;
- (ii) The approximate amount and the characteristics of the discharge or manure spillage;
- (iii) The waters of the state affected by the discharge or spillage;
- (iv) The circumstances which created the discharge or spillage;
- (v) The names and telephone numbers of persons who have knowledge of these circumstances;
- (vi) Those steps being taken to clean up the discharge or spillage; and
- (vii) The names and telephone numbers of persons responsible for the cleanup.

THE OWNER OR OPERATOR SHALL ALSO FILE A WRITTEN REPORT OF THE OCCURRENCE IN LETTER FORM WITHIN FIVE CALANDER DAYS FOLLOWING FIRST KNOWLEDGE OF THE OCCURRENCE, UNLESS OTHERWISE WAIVED BY THE DIRECTOR OF AGRICULTURE. THIS REPORT SHALL OUTLINE THE ACTIONS TAKEN OR PROPOSED TO BE TAKEN TO CORRECT THE PROBLEM AND TO ENSURE THAT THE PROBLEM DOES NOT RE-OCCUR. (901:10-2-17[A][4][d])

THE WRITTEN REPORT SHALL BE SENT TO THE FOLLOWING ADDRESS:

*OHIO DEPARTMENT OF AGRICULTURE
DIVISION OF LIVESTOCK ENVIRONMENTAL PERMITTING

PREARRANGED EMERGENCY RESPONSE AGREEMENTS

This part is not required by ODA rules, but is strongly recommended.

To deal with an emergency quickly and effectively, most operations need assistance from other individuals. It is essential that prior arrangements be made so every person involved knows what to do when an emergency arises. Individuals can quickly bring equipment such as tractors with plows, backhoes, bulldozers, or personnel with shovels. Reciprocal agreements can be established with these neighbors.

If a spill occurs, it is very important to have access to nearby land, irrigation, and earth-moving equipment. In most cases, the owner or operator, producer, farmer, or emergency response personnel must contact people who own the equipment needed to respond to a spill. Having a prearranged written agreement with these people simplifies matters. The terms of these arrangements should include such things as financial compensation and a description of the equipment that would be used. List any arrangements made with other owners, operators, or producers and neighbors to share personnel and/or equipment, supplies, and land access during an emergency.

ACCESS AGREEMENT – (The following is a sample land access agreement.)

This document will serve as an access land agreement between

_____, hereafter called Owner or Operator and
_____, hereafter called Neighbor.

In the unlikely event that a manure discharge originating from the owner or operator's property enters neighbor's property, neighbor hereby grants permission to owner or operator or his agents to enter neighbor's property and take any reasonable steps to control, contain, and remediate the manure discharge.

Owner or Operator agrees to restore Neighbor's property to its original condition.
